

TARANJOT SINGH

Aspiring ML Engineer

taranjot10934@gmail.com | +91 9315672843 | Panipat, Haryana | [linkedin.com/in/taranjot-singh-aiml](https://www.linkedin.com/in/taranjot-singh-aiml) | github.com/taranjotsinghW28

PROFESSIONAL SUMMARY

Dynamic BCA AI/ML student and aspiring ML Engineer with hands-on experience in 3+ end-to-end projects achieving up to 89.8% F1-score. Excelled in Python internship optimizing systems by 30%. Skilled in supervised learning, feature engineering, model deployment via Streamlit/Flask, and tools like MLflow/Fairlearn. Passionate about real-world AI solutions; seeking ML/Data Science internships to contribute and grow.

TECHNICAL SKILLS

- Python, SQL, C
- scikit-learn, Pandas, NumPy, XGBoost
- Regression, RF, DT, KNN
- Streamlit, Flask, Git, MySQL

EDUCATION

BCA (AI & ML)
Geeta University, Panipat
2024–2027 | GPA: 8.24

Class 12th (CBSE)
S.D Vidya Mandir, HUDA School
86% | 2023-2024

Class 10th (CBSE)
S.D Vidya Mandir, HUDA School
80% | 2021-2022

CERTIFICATIONS

- NPTEL Design Thinking (Elite)
- Kaggle Intro to ML

EXPERIENCE

Python Intern | Geeta Technical Hub, Panipat
Jun–Jul 2025

- Engineered scalable OOP backends with SQLite/MySQL; slashed query response time 30%.
- Designed DB schemas & REST APIs handling 1,000+ daily requests.
- Led Git-based collaboration (4-member team); minimized merge conflicts by 25%.

KEY PROJECTS

LoanRisk AI – FinTech Loan System | May 2026

- Developed dual-model classifier (**Random Forest F1:75.8%, Decision Tree F1:89.8%**) using scikit-learn/XGBoost; mitigated bias with Fairlearn (-20% disparity).
- Implemented MLflow experiment tracking, 5-fold CV, SMOTE for imbalance; Dockerized for production.
- Live Streamlit dashboard: 500+ predictions/day. [Demo](smartcheckout-ai.streamlit.app)

Heart Disease Prediction | Mar–Apr 2026

- Built optimized Random Forest (**Recall:78.67%, ROC-AUC:87.69%**) outperforming LR/DT/GB/KNN by 12% avg.; feature eng with Pandas/SMOTE.
- Hyperparameter tuning via GridSearchCV; deployed interactive Streamlit app for real-time diagnostics.

House Price Prediction App | Apr 2026–Present

- Creating RF regressor predicting sale probability (**Goal:82% accuracy**) & profit %; RandomizedSearchCV/PCA for 25% faster inference.
- Full-stack Flask/HTML/CSS + SQLite; handles 10k+ listings for market analysis.
